Telephone: 802-773-7356

Each year interest in our Farm Museum of antique tools, household items and farm machinery has increased.

We feel that this museum is definitely a permanent part of the Fair, therefore, we have created a special department for it.

Daily demonstrations have been planned throughout the week for the pleasure of the visitors and the renewal of memories of the "by gone" days relating to life on the early farms of Vermont.

Some of the demonstrations will be —

Spinning Wheels
Operating Loom

Please visit us and enjoy the articles in the two barns housing our collection of the museum which is located near the Mandigo Arena and contains something of interest for everyone.
